

Arin

	Luminaire's light distribution is direct/indirect.
LED	Denotes which light source/light sources that can be supplied with the luminaire.
IP20 	IP Classification: Protection against solid objects >12mm. No protection from liquids/moisture
	Class 1: Appliances with functioning insulation. Equipped with an earth termination.
	RCM: Indicates a device's compliance with applicable ACMA technical standards.
	ESD: Personnel should be grounded when unpacking or handling the luminaire.
	High Voltage: Luminaire circuitry exceeds a forward voltage of 50V.

Important Information

Please read this guide carefully before installing or maintaining this equipment. Data should be used as an INDICATION only and good electrical practices should be followed at all times.

Must only be installed by a licensed electrician.

If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or their service agent or a similar qualified person in order to avoid a hazard.

For indoor use only.

A qualified electrician, in accordance with AS/NZS 3000:2007 wiring regulations should carry out connection to mains wiring.

This unit must be EARTHED.

Ensure that the rated voltage and frequency requirements are compatible with the available mains supply, 220-240V 50Hz.

Cleaning of reflectors and lenses should be carried out using clean, soft and lint free cloths and anti-static cleaning fluid.

Do not carry out high voltage insulation test i.e. 500/1000V this may damage the fixtures electrical components.
